Advanced Cargo Net User's Information Manual

A Few Words About Safety

Your safety, and the safety of others, is very important. And using this accessory safely is an important responsibility.

To help you make informed decisions about safety, we have provided operating procedures and other information on labels in the vehicle owner's manual, and in this manual. This information alerts you to potential hazards that could hurt you or others.

Of course, it is not practical or possible to warn you about all the hazards associated with operating or maintaining your vehicle. You must use your own good judgement.

You will find this important safety information in a variety of forms, including:

- **Safety Messages** – preceded by a safety alert symbol ⚠ and one of three signal words: **DANGER, WARNING,** or **CAUTION**. These signal words mean:

⚠ **DANGER**	You WILL be KILLED or SERIOUSLY HURT if you don't follow instructions.
⚠ **WARNING**	You CAN be KILLED or SERIOUSLY HURT if you don't follow instructions.
⚠ **CAUTION**	You CAN be HURT if you don't follow instructions.

As you read this manual, you will find information that is intended to help you avoid damage to your vehicle, other property, or the environment.

- **Instructions** – how to use this system correctly and safely.

This manual contains important safety information – please read it carefully.

NOTE

- Some luggage stored in the advanced cargo net may interfere with the tailgate when it is closed. To prevent damage, do not store large or fragile articles in the advanced cargo net.

- Before storing articles that have sharp edges or corners, wrap them with paper or in a blanket so their sharp edges or corners will not contact the advanced cargo net directly.
